Update: Overnight and weekend works in August 2026

HS2-SCS-26-2418

Location

Euston Approaches, Camden

Duration

Weekend working from Saturday 8 August to
Sunday 30 August 2026

What we are doing

Excavation, steel cutting, hoarding install and
coring in Camden Cutting North area.

Overnight working on Granby Terrace bridge.

Reinstatement of white lining at the Vehicle
Holding Area.

What to expect

Periods of increased noise.

Monitoring of our works to ensure we are
working within approved noise limits.

We are committed to keeping you informed
about work on HS2. This includes ensuring
you know what to expect and when to expect
it, as well as how we can help you. Should you
have any questions or concerns about our
works you can contact us by:

Weekend working in Camden Cutting north

We previously informed you that we need to complete protective works to Network Rail tracks ahead of the tunnel boring machine arriving in Euston. The works will now finish on **Sunday 30 August**. This will involve excavation and steel cutting at track-level in several areas within the Camden Cutting. We also need to install hoarding and complete coring works in the retaining wall during overnight shifts. Due to the location of these works, we can only carry this out when the rail tracks below are not in use. We expect there to be some noise during these works. We'll work on the following dates;

- 9pm on Saturday 8 to 9am on Sunday 9 August
- 9pm on Saturday 15 to 9am on Sunday 16 August
- 9pm on Saturday 29 to 9am on Sunday 30 August

We apologise for any disruption these works might cause.

Weekend working on Granby Terrace bridge

We need to complete some enabling works to facilitate the build of our haul road across Granby Terrace bridge. This will involve using a crane to lift concrete blocks onto the newly constructed bridge. We'll need to work overnight from **9pm on Saturday 29 August to 9am on Sunday 30 August**. Due to the location of these works, we can only carry this out when the rail tracks below are not in use. We do not expect these works to be noisy.

Reinstatement of white lining at the Vehicle Holding Area

We need to reinstate the white lining at the entrance to our Vehicle Holding Area (VHA) to ensure safety for our vehicle movements when entering and leaving site. We'll need to remove the old lining by using a high-powered water blaster before applying the new lining. We'll need to temporarily close the pedestrian crossing and redirect pedestrians around the closure. We'll work on **Saturday 29 August, from 8am to 5pm** to complete this work. If we cannot complete this work on 15 August, we may need to work the following Saturday as contingency. We apologise for any inconvenience caused.

Ongoing surveys and monitoring at track-level within the Euston Approaches

We carry out regular surveys and monitoring of the bridges and structures within the railway cutting, to inform and assess the impact of our works. For safety, due to the location of these structures beside, above and below the railway tracks, we can only carry out these surveys when the tracks are not in use. This means we frequently carry out surveys during weekends and overnight shifts.

Large load movements

To help with our deliveries and collections, we regularly have large loads delivered to or collected from our worksite via Hampstead Road gate and the Vehicle Holding Area. For safety reasons, these loads need to be moved at night or early morning to avoid peak traffic hours.

Due to the size and weight of these loads there may be occasions where our approved lorry routes are not suitable, and the haulier may need to use alternative roads. Our traffic management team will be present to assist the haulier in safely navigating the route and traffic marshals will be on site to guide lorries in and out of our worksites.

These movements will continue on various dates throughout the duration of the project.

Where we will be working

Euston Approaches text messaging service

We previously informed you that we would be launching a new SMS messaging service within the Euston Approaches to share information on our planned works, changes or delays to works, and extended working hours. Each text message will contain a short summary of the key information and a link to the full update on the HS2 website.

Should you wish to receive our SMS updates please complete a short online form which can be found by scanning the QR code to the right, and by providing your name, contact number and street name. You will be able to unsubscribe at any time by following the link provided in each SMS.

Keep up to date with your local community website

About our Community and Business Funds

We are offering two funds that are available to local communities and businesses between the West Midlands and London, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.

For more information about each of these funds, including how to apply, please visit: <https://www.groundwork.org.uk/hs2funds>.

Please contact us if you'd like a free copy of this document in large print, Braille, audio or 'easy read' format. You can also contact us for help and information in a different language.

Holding us to account

If you are unhappy for any reason, you can make a complaint by contacting our HS2 Helpdesk team. For more information, visit: www.hs2.org.uk/how-to-complain

We have an independent Residents' and Construction Commissioner who helps settle disputes and monitors the way in which we manage and respond to complaints about construction.

For more information visit: www.hs2.org.uk/independent-commissioner
