

Update, utility diversion works Interchange site

HS2-26-2397

Location

Interchange Station site and A452

Duration

17 August 2026 to 7 May 2027

What we are doing

The diversion of the 132kV overhead lines has been delayed for c.9months.

National Grid Electrical Distribution (NGED) is now mobilising to complete the work.

NGED will remove two overhead line circuits and replace them with two underground cable circuits.

What to expect

Work will be within our existing construction area, and there should be no significant impact on the wider area. There will be a short night-time road closure of the A452 in Q1 2027 to remove some overhead cables.

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help you. Should you have any questions or concerns about our works you can contact us by:

Keep up to date with what is happening in your local area at
**[www.hs2.org.uk/in-your-area/
in-your-area-map/](http://www.hs2.org.uk/in-your-area/in-your-area-map/)**

Site access will be from the A452 through the blue gate at the north. Lower numbers of vehicles will need to use the smaller access off Packington Lane to service the northern tower. These access routes are shown on the map on Page 2.

The circuits run from the northeast of the HS2 Interchange station to the southwest side near the M42. Most of the work will be on the current HS2 Interchange construction site. With some work on the A452.

If you are unhappy for any reason, you can make a complaint by contacting our HS2 Helpdesk team. For more information, visit: www.hs2.org.uk/how-to-complain

We have an independent Residents' and Construction Commissioner who helps settle disputes and monitors the way in which we manage and respond to complaints about construction.
