

Use of site access gates in Digbeth area - Curzon St station

HS2-BCZ – SCP-26-2422

Location

Andover Street, Fazeley Street and Park Street

Duration

Monday 24 August until further notice.

What we are doing

We will be opening the existing gates on the southern side of the site, in the Digbeth area. This is to allow our construction vehicles to access the site from this location.

What to expect

These gates will be used on a limited basis and only when access is required to the southern side of the construction site. During these times, you may notice an increase in the number of HGV vehicles in the area.

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help you. Should you have any questions or concerns about our works you can contact us by:

Additional information

The construction of the station site has progressed to a stage where it is no longer possible to access the full site from the Curzon St entrance in the north. To facilitate site operations and deliveries, some vehicles will need to access the site via the southern entrance.

We recognise that construction work can be disruptive to those living or working nearby. The nature of our work often means some disturbance is unavoidable. We will make every effort to minimise any unnecessary noise. We will closely monitor all noise, vibration, and dust levels to ensure we do not exceed our agreed limits.

Where we will be working

Please see map below showing location of the access gates we will use.

Please contact us if you'd like a free copy of this document in large print, Braille, audio or 'easy read' format. You can also contact us for help and information in a different language.

Holding us to account

If you are unhappy for any reason, you can make a complaint by contacting our HS2 Helpdesk team. For more information, visit: www.hs2.org.uk/how-to-complain

We have an independent Residents' and Construction Commissioner who helps settle disputes and monitors the way in which we manage and respond to complaints about construction.
