SKANSKA COSTAIN STRABAG Working in partnership with HS2

Update: Cadent gas main works – Parkway, Camden

HS2-SCS-26-2747

Location
Parkway, Camden

Duration
Ongoing to March 2027

What we are doing
We're strengthening the gas main beneath Parkway ahead of the tunnelling works. We've made changes to Parkway junctions and will now work on the gas main to reduce impact on local traffic.

What to expect
We will work overnight to change to the next temporary traffic management set up.

There will be periods of increased noise.

We will monitor our works to ensure we are within approved noise limits.

There will be lane and road closures with diversions in place, and temporary pedestrian crossings.

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help you. Should you have any questions or concerns about our works you can contact us by:

Cadent gas main works new start date – 11 November 2026 to March 2027

We've completed the junction modifications on Parkway. We will now replace sections of the existing gas main with a new one. Please note your gas supply will not be affected. We will close several lanes on Delancey Street and Parkway for these works with temporary traffic lights and pedestrian crossings around the junction. You will now be able to travel straight from Delancey Street to Gloucester Avenue. You will not be able to turn left from Delancey Street onto Parkway. This work is due to start on **11 November 2026**.

We will also install new temporary traffic signals at the junction between Parkway and Delancey Street. We will do this work overnight on **11 November 2026**. We will replace the current wireless temporary traffic light system with a new hard-wired signal. This will improve connectivity between temporary traffic light signals and reduce the disruption to road users and residents. We will do this work within our traffic management that's already installed on Parkway.

The map below shows the location of our works and the traffic diversion route.

Please contact us if you'd like a free copy of this document in large print, Braille, audio or 'easy read' format. You can also contact us for help and information in a different language.

Holding us to account

If you are unhappy for any reason, you can make a complaint by contacting our HS2 helpdesk team. For more information, visit: **www.hs2.org.uk/how-to-complain**

We have an independent Residents' and Construction Commissioner who helps settle disputes and monitors the way in which we manage and respond to complaints about construction. For more information visit: **www.hs2.org.uk/independent-commissioner**
