 Traffic Lights

Location of works for the road closure and approved diversion route from Monday 16 November to Monday 30 November 2026

There will be road closure at the roundabout on the A446 Lichfield Road to the roundabout at A452 Collector Road.

The diversion route for westbound traffic is A446 south to Coleshill Heath Road, Coleshill Heath Road to A452 Chester Road, A452 Chester Road to A452 Collector Road, A452 Collector Road to B4114 Birmingham Road where it ends.

The diversion route for eastbound traffic is A452 Collector Road to A452 Chester Road, A452 Chester Road to Coleshill Heath Road, Coleshill Heath Road to A446 Lichfield Road, A446 Lichfield Road to B4114 Birmingham Road where it ends.

Please see below a map showing the location of the closure and diversion route:

What we are doing

We will be carrying out essential works, including some repairs to the structure above the carriageway, including painting, concrete repairs and installing cover plates. Utility works will also be undertaken within the carriageway and footways.

What to expect

- Working hours will typically be between **7am and 6pm** each day, although occasional evening working may be required to support the programme or complete specific activities.
- The **road closure and temporary traffic lights will remain in place 24 hours a day** throughout the works. This is because the traffic management cannot be safely removed and reinstated each day and helps keep the work area safe and secure. A traffic management team will be on site during peak travel periods to help manage traffic flows and minimise disruption.
- **Pedestrian and cycle access will be maintained** throughout the works.
- Access to **Woodlands Cemetery, the car boot sale field and Coleshill Manor Campus** will be maintained via the **A452 Collector Road roundabout**.
- To minimise disruption, we have **reduced the full road closure from four weeks to two weeks** and will use temporary traffic lights where possible. While some delays may still occur, this significantly reduces the impact on road users compared with a longer full closure.

Upcoming event
