

Update on works in your area

HS2-EUS - SCP-26-2559

Location

Euston Street, North Gower Street, Starcross Street, Hampstead Road and behind our hoardings.

Duration

Ongoing

What we are doing

We are carrying out utility diversions on local highways and continuing with site preparation behind our hoardings.

What to expect

Working hours are **Monday to Friday, 8:00am to 6:00pm**. Start-up and close-down activities may occur up to one hour before and after these times. Occasionally, work may also take place on **Saturdays and Sundays between 8:00am and 6:00pm**. It may be necessary to work **at night between 10pm and 5am** for works that cannot be undertaken during the day due to proximity to the live railway and pedestrian flow.

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help you. Should you have any questions or concerns about our works you can contact us by:

Freephone **08081 434 434**

Minicom **08081 456 472**

Email **HS2enquiries@hs2.org.uk**

Maria Fidelis Old School and Gas Connection - Starcross Street

Landscaping at the Maria Fidelis Old School is continuing and will be completed by the end of this year. The building itself has been refurbished and is now occupied by project staff. From late September we began connecting the new gas main installed last year. The works would be in place for up to four weeks. Two parking bays will be suspended for the duration of the works.

Utility Diversions – Euston Street and North Gower Street

Since May 2026 we have been carrying out utility diversions on Euston Street and North Gower Street. Works are progressing well and at the end of September we will begin the planned sewer diversion. These works will continue until late Spring 2027 and throughout the duration of the works, there will be **no vehicle access to Euston Street**. Pedestrian access to properties and Euston Station will be maintained throughout.

Hampstead Road – Trial Holes

To support upcoming junction works for the new haul road, we need to carry out two trial holes on Hampstead Road. These works will help us confirm the best locations for new lighting columns. The works will start from **Mid-October 2026** and are expected to take around two weeks to complete. While the trial holes are being carried out, the cycle lane on Hampstead Road will be temporarily closed and diverted for use by pedestrians.

Drummond Street – UKPN works

UKPN have further cable connection works to take place on Drummond Street and North Gower Street in late October. These works will take three weeks to complete and will require a closure of Drummond Street for up to five days. UKPN will send further information prior to the works taking place.

Where we will be working

Behind Our Hoardings

Logistics works are continuing, and we have begun transporting materials by rail. Since August 2026, we have removed 17,284.88 tonnes of material by rail, taking the equivalent of 1,090 lorry journeys off local roads. Other works behind our hoardings include ongoing utility diversions and construction of the on-site vehicle route, which is due to be completed in early 2027. Our piling programme will resume in November 2026.

Overnight delivery of materials

To facilitate the delivery of materials, we will be conducting intermittent overnight deliveries between 7pm and 7am. This is necessary to accommodate vehicles that are restricted from operating on London roads during daytime hours.

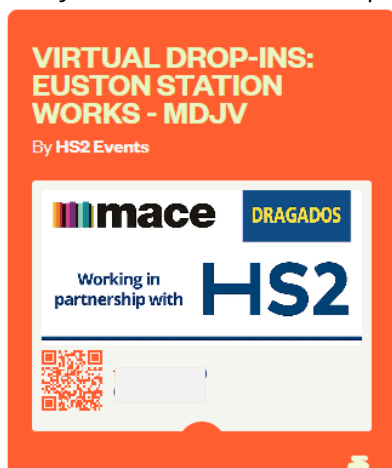

Our commitment to minimising our impact

We understand that construction can disrupt people living and working nearby. Some periods of increased noise may be unavoidable, particularly during excavation and concrete works, but we will take all reasonable steps to minimise disturbance. To reduce impacts on local communities, businesses and commuters, we will use noise blankets where appropriate, control dust, monitor noise and air quality, and regularly review traffic management arrangements. We will also provide regular works updates, engage with stakeholders and maintain an on-site Customer Experience Team to support the public and respond to enquiries. Please note that changes to the programme may occur. If there are significant changes, we will write to you again.

Keeping in Touch

Each month we hold virtual meetings to provide updates on works in the area. You can book a 20-minute slot by getting in touch with us at: enquiries@macedragados.com or scan the QR code below.

We will also be hosting appointment free drop-in sessions at the Euston Community Hub every second Thursday of the month between 5pm and 7pm, beginning on **Thursday 13th November 2026**.

Please contact us if you'd like a free copy of this document in large print, Braille, audio or 'easy read' format. You can also contact us for help and information in a different language.

Holding us to account

If you are unhappy for any reason, you can make a complaint by contacting our HS2 Helpdesk team. For more information, visit: www.hs2.org.uk/how-to-complain

We have an independent Residents' and Construction Commissioner who helps settle disputes and monitors the way in which we manage and respond to complaints about construction.

For more information visit: www.hs2.org.uk/independent-commissioner
