Balfour Beatty VINCI SYSTRA Working in partnership with HS2

Old Oak Common Lane emergency weekend road closure: utility chamber repairs

REF: HS2-OOC - SCP-26-2732

For the attention of:

Residents of Wells House Road, Oaklands Rise, Old Oak Estate

Location

Old Oak Common Lane, towards the northern section (see map on page 2).

Duration

6am Saturday 28 November until 10pm Sunday 29 November

What we are doing

During the road closure this weekend, we will be carrying out essential repairs to three damaged Openreach (BT) telecommunications chamber covers in the carriageway.

What to expect

Works will be taking place under a full road closure of Old Oak Common Lane (see map on page 2).

Noisey works will take place during the day between 8am and 2pm on Saturday and Sunday. Outside of these hours, activities will be limited to setting and curing of materials, which will generate little or no noise. There will be no overnight works while the concrete sets.

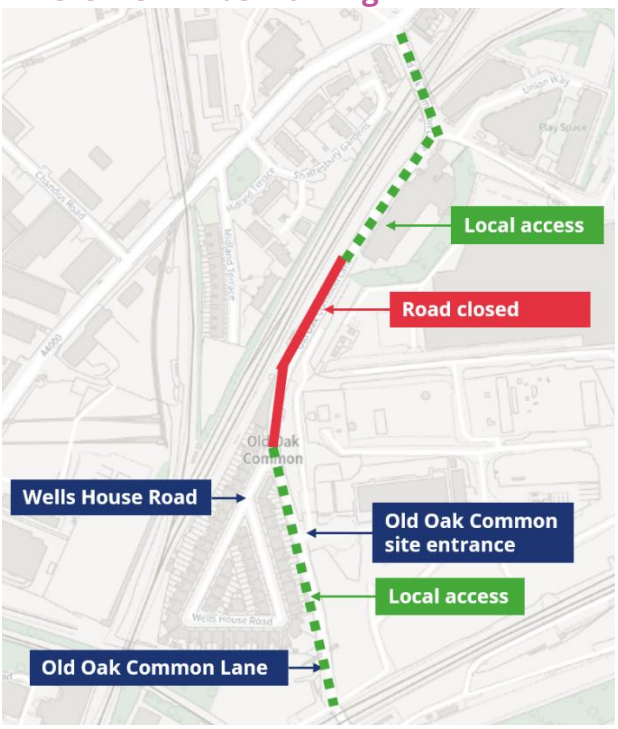

Wells House Road will only be accessible by vehicle from the south on Old Oak Common Lane. Pedestrian access will be maintained at all times.

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help you. Should you have any questions or concerns about our works you can contact us by:

Where we will be working

What work is taking place?

During the road closure on Old Oak Common Lane, we will be carrying out essential repairs to damaged Openreach (BT) telecommunications chamber covers in the carriageway. To complete these repairs, we will remove the existing road plates and chamber covers, break out the surrounding tarmac and concrete, and install new covers and frames. The chambers will then be secured and reinstated before new road surfacing is applied. Some of the materials used require time to cure and set, so final surfacing works will be completed on Sunday.

What equipment will be used?

The work will require the use of specialist construction equipment, including road saws, compactors, breakers, drilling equipment, material delivery vehicles and lifting machinery.

Measures to reduce disruption for the local community

We recognise that these activities may cause some disturbance and we will take steps to minimise the impact on nearby residents. These measures include installing acoustic barriers around the work area where practicable, using electric tools where possible, avoiding noisy work before 8:00am, and applying dust suppression measures when required.

Please contact community@bbvsjv.com or the HS2 Helpdesk on 08081 434 434 or via email at HS2Enquiries@hs2.org.uk if you have any questions. We will update this notification with any additional information if required.

Please contact us if you'd like a free copy of this document in large print, Braille, audio or 'easy read' format. You can also contact us for help and information in a different language.

Holding us to account

If you are unhappy for any reason, you can make a complaint by contacting our HS2 Helpdesk team. For more information, visit: **www.hs2.org.uk/how-to-complain**

We have an independent Residents' and Construction Commissioner who helps settle disputes and monitors the way in which we manage and respond to complaints about construction.
For more information visit: **www.hs2.org.uk/independent-commissioner**
