Curzon St station - beams delivery

HS2-BCZ – SCP-26-2737

Location
Curzon Street station site

Duration
Wednesday 18 November 2026 to June 2028.

What we are doing
From November through to mid-2028, we will receive delivery of a number of large concrete beams. We will install these on site to span and support the new platforms.

What to expect
Due to the size of some of these beams, they will be delivered using abnormal load vehicles that require a police and general abnormal load vehicles escort. There may be some very minor disruption, such as queues on the local roads surrounding the site while these are delivered.

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help you. Should you have any questions or concerns about our works you can contact us by:

Classification - Public

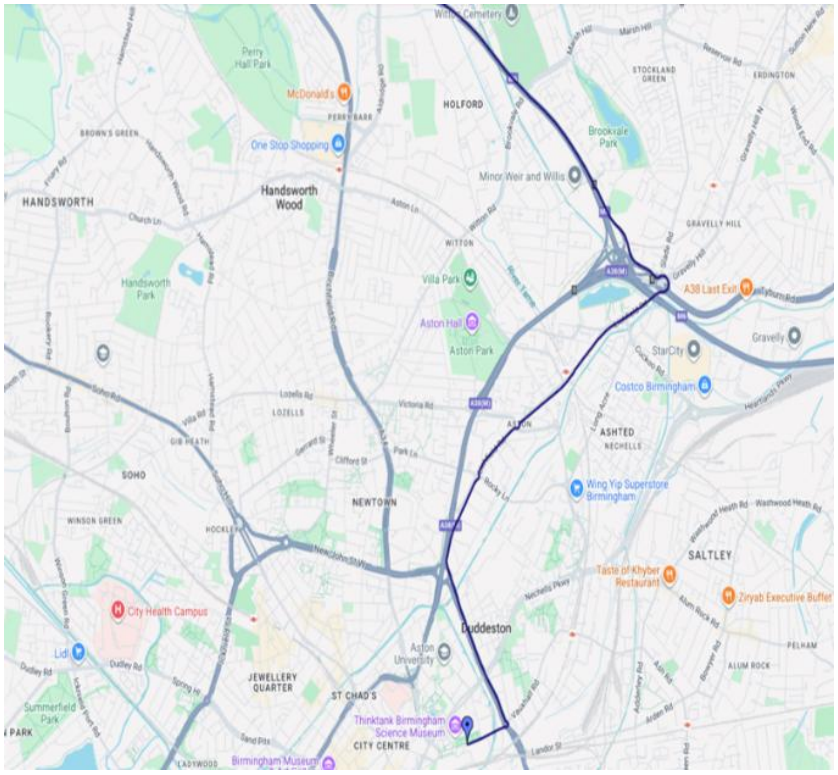

Additional information

The beams will arrive on site at about 6.30am. The delivery vehicles will assemble at Junction 11 of the M6, where they will undergo police inspection at 5.30am, before proceeding to the Curzon Street station site under police and abnormal load escort.

We recognise that construction work can be disruptive to those living or working nearby. The nature of our work often means some disturbance is unavoidable. We will make every effort to minimise any unnecessary noise. We will closely monitor all noise, vibration, and dust levels to ensure we do not exceed our agreed limits.

Where we will be working

Please see image below showing map of the route the vehicles will take from M6 Junction 11 to Curzon Street site.

Please contact us if you'd like a free copy of this document in large print, Braille, audio or 'easy read' format. You can also contact us for help and information in a different language.

Holding us to account

If you are unhappy for any reason, you can make a complaint by contacting our HS2 Helpdesk team. For more information, visit: **www.hs2.org.uk/how-to-complain**

We have an independent Residents' and Construction Commissioner who helps settle disputes and monitors the way in which we manage and respond to complaints about construction.
