Additional information

Following the demobilisation of the conveyor between our Rocky Lane and Small Dean sites, we will be removing the temporary bridge and section of the conveyor over the Chiltern Railways line. We have possession of the railway during overnight hours while the train service is inactive to safely enable the removal of the conveyor and bridge.

We have liaised with the local authority when planning this work and consent for the overnight hours has been granted. Noise levels will be closely monitored to ensure they remain within the permitted limits and there will be regular reviews with the local authority.
